IMA

A stylized, monochromatic illustration of a dragon, rendered in a dark brown color against a slightly lighter brown background. The dragon is depicted in a dynamic, coiled pose, with its head turned back and its wings partially spread. The illustration uses bold, flowing lines to create a sense of movement and power. The dragon's body is covered in detailed scales, and its tail is long and curved. The overall style is reminiscent of traditional Japanese art, such as woodblock prints or ink wash paintings.
